Attention: Review Panel
Stage 1 Submissions
Frontier Health & Medical Research Program

Dear Review Panel

RE: PROJECT PROPOSAL FOR ZERO RADIATION LUNG DIAGNOSIS FOR YOUNG CHILDREN

The inability of current technologies to enable medical practitioners to provide accurate and timely diagnosis of lung conditions or disease in patients under 6 years of age is a major gap in health capability and a worldwide problem.

The South Australian Government endorses the Joint Venture proposal for Stage 1 Frontier Health & Medical Research funding to develop a detailed project plan to comprehensively address this problem and establish a global centre of knowledge, expertise and manufacture of next generation 4Dx technology in Adelaide.

Yours sincerely

DR CHRISTOPHER MCGOWAN
Chief Executive
